E. H. VULL. Fair-

THE MATTER OF THE ROADS

Referring to the fact that the farmers | yable social event of of Catawha county are kept at their homes by the condition of the roads. The Newton Enterprise says winever them and that its information is that The decorations of the there is practically no opposition to the and similar latter rate some systematic plan of road improvement, though there is some in the towns. Then the towns are standing very much in their own light; they soft managed were the result good roads than the county. Our con temporary believes that this opposition would be abandoned if the plan of attraces. Forms le grading, draining and covering with slower and more expensive macadam. ing system." It places the cost of this treatment at the low figure of Soo a Scaproon basion of efficiency of this system, but North Carolina needs anything more than the banishment of ignorance. It is to get out of the mud, and it is a pleasure to see that some of our counties O. B. Mayer, the B. Cromet, W. K. have taken hold of this problem in a Sign. J. L. W. Bansson, W. A. Wright, issue of road improvement bonds. There are two avenues of hope for the imonly two. One is through the abandon: Holland, S. B. Jones, Trees, Majors, J. ment of farming by the penitentiary and the putting of all able-bodied concicts, excepting those under sentence tor the gravest felonies, at work on the roads; the other is the issue of bonds To maintain a chain-gang large enough to be effective is more expensive than to maintain an interest account, and bonds provide means by which the roads may be improved more rapidly than by the other method. It is the more practicable plan but our counties will have to come to one or the other unless the roads are to go from bad to worse.-Charlotte Observor. What is true in North Carolina is

true here. We believe we need more " to get out of the mud" than we need the banishment of ignorance, for if we were out of the mud in the sense here meant we would soon banish the ignorance which hangs over us. In fact good roads would be the happy solution of many of the problems which now confront us. The only way to secure good roads is by taxation and then have them built by contract. We have always been an advocate of putting the convicts upon the public roads and we still believe that much good could be accomplished in this way if the convicts were properly handled, but if we are to be governed by the practical results in those counties where convicts have been tried we would conclude that this system is a failure, except to go over the roads and build a few ditches and this has to be done after each rain.

The best investment the people of this county could in ke, and for that matter the people of any county in this State, would be to vote for an issue of about half million dollars of bonds, the money to be used in building some good roads. It seems to us that any one who travels only occasionally the roads of this State would hesitate a long time before he would oppose such a forward ant progressive movement and we do not believe any taxpayer in this county would oppose the expenditure of public money for the improvement of the punlie roads.

It would be a good investment from any viewpoint. The increased value of property would amply repay the investment. Then there comes the savand horses not to speak of the saving in time and the increase in the amount vehicles and horses. Then there is to be considered the increased desirability Each county should start a good roads movement and the sooner the better.

The annual reunion of United Confederate Veterans will be held at Dallas, Texas, on the 22nd of April.

These reunions are always happy occasions for the old veterans, when they can meet their comrades of the dark days of the sixties, and revive the sad, but sweet memories of the past. All the veterans who can should attend. We would like to see a large delegation from this State and this county. We believe that in addition to the joy which they bring to the hearts of the old veterans, they do much good in that they bring before the generation which has now come upon stage clearer than all the books that have been written. the history of the great conflict carried on by their father's to defend a cause they believed to be just.

We noticed the statement in the Columbia papers that 156 families had recently left the farms to go to work in the Columbia cotton mills. At this rate the rural sections are sure to suffer There should be money made on the farm if the farm is properly managed and worked, and if there is not any money to be made farming, conditions are wrong somewhere. If we had better roads in the country the problem would almost be solved, for that would mean better schools and many comforts. Then if the lien law were repealed and our credit system were changed, the farm would be the ideal place to live.

It seems that the sword incident is going to be the means of securing a very handsome sword for Majox Jenkins, and Col. Tillman will have his sword left on his hands. We hope, however, ranteed for all Throat and Lung trouthat the sword incident so far at least as Col. Tillman is concerned is at an end. However, Major Jenkius will him and a zouch handsomer one than the first one.

An Open Letter from Representative Dominick

March 8, 10 2

Mr. W. G. Peterson, Longshotes, S. C My Dear Sir:-I had at first decide not to notice the fight you are making on me both through the new-paperand otherwise, but to treat it wither to contempt which it il serves. of a Confederate veteran, and watte me father was but a youth at the time and always been taught to have and do have in a true Southern heart. As to your of Registration, I will say that the orimary teason is the same as the one that you were not elected Master in the primary, participated in by the Democratic voters of Newberry County, viz ; A lack of the majority of the votes. In that primary, on account of previous acquaintances, your former pleasant connections with my father and my recollections of your personal and bust ness relations with my grandfather, I voted for you. A few days after the first primary, I was informed by some friends that you not only voted against me, (for what reason I do not know, neither do I care but you did all in your power to defeat me at the Long shore box. I immediately changed pofor your opponent. As to your action in the first primary, I will say that they ing in the wear and tear of vehicles ago by some of the voters at the Long that could be conveyed by the same and sticking to my friends in preference to those who fought me, and i the people of Newberry County want to of the country as a place of residence. down me on that account. I am now willing to step down and out.

As to your being deprived of an office, I will state that my information was that the only reason you are not now drawing six hundred dollars as a distributor of mail on the free rural delivery is that you found out that you could not hold both positions and consequently had your son appointed in your stead. I could also remind you of another thing in this connection, but do not care to speak of it here. I did not vote for your reappointment, for the reason as stated above, for qualifications being equal, I shall always support my friends and supporters, provided the public service is not thereby impaired. I will further tell you that out of the nine ballots taken on eight of them you received but one vote. (each time) which clearly showed that you were not only not my choice for the position, but also not the choice of the delegation. As a public officer, honored by my constituents, I am willing to be criticised for any of my actions or votes when it is done fairly and legitimately and I have no excuses or apologies to make for a single vote east by myself during my brief legislative career and if in coming years I am honored further by the people of Newberry, I shall always act as I have done in the past, voting as I think will best subserve the public interest, let the consequences be what they may.

I am, yours respectfully.

FRED H. DOMINICK.

In Memoriam

Resolutions by the O'Neall Street Sanday School, Newberry, S. C., to the temory of Mrs. Lizzie White Fant.

Whereas, God in his wisdom has re noved from our midst to her heavenly nome, Mrs. Lizzie White Fant, a most faithful worker in the discharge of all her duties in our Sanday School, be it

1. That we testify to the usefulness of her who did with her might whatever her hands found to do, in the church and Sunday School and in comnon duties of daily life.

2 That we have lost a teacher whose words and council helped us, and led us to higher, nobler and purer things. 3. That we extend our deepest sym patny to the husband and son, and com-

suffered and wept with his friends. 4. That these resolutions be spread upon the minutes, a copy be sent to the family of the deceased, to the Observer and Herald.

mend them to the loving Jesus who

Whereas it has pleased God in His all-wise providence to take from our midst Mrs. Fant, the dearly loved Vicepresident of the Epworth League, and whereas at her death we the members, are called upon to mourn the loss of one who had endeavored herself to all, a Leaguer tried and true always ready to do cheerfully her Master's work, an officer faithful in every duty. Be it

First. That though we have felt and shall feel her loss severely in our hearts in our homes and in our League, we iw in tumble submission to the will of Him who doeth all things well,

Second. That we extend to the becaved family our sincere and earnest ympathy and that we commend them othe loving care of the Heavenly Fa-

Third. That a copy of these resolutions be sent to her husband and son often fatal, and even when the patient and that a page in our Minute book be inscribed to her memory.
